EDUCATION

McMaster University **Hamilton, Ontario**
Honors B.A.Sc. Computer Science *Expected Graduation May. 2030*

- Concentrations: Software Engineering, AI and HCI
- Related Coursework: Computing in Python, Data Structures, Web Development

WORK EXPERIENCE

Fiducia AI **San Francisco, California**
Front/Backend Engineer Intern *July. 2021 – Aug. 2021*

- Engineered an Angular dashboard aggregating 3+ backend metrics (API response time, CPU utilization, system logs), enabling engineers to diagnose performance issues ~35% faster.
- Integrated a QR-code system linking 3D models to physical assets, enabling mobile access to 10+ interactive digital models.

Kumon **Mississauga, Ontario**
Math/Reading Teaching Assistant *Aug. 2021 – Jul. 2024*

- Curated an Excel-based student database (500+ students) integrating academic progress, lesson completion, and attendance records to streamline performance tracking for instructors.

City of Mississauga **Mississauga, Ontario**
Lifeguard/Swim Instructor *Mar. 2024 – Dec. 2025*

- Supervised aquatic safety for 150+ swimmers per shift while instructing 7–10 swim lessons weekly across preschool to adult levels.

PROJECTS

Event Management Dashboard **Hamilton, Ontario**
Team Lead *Oct. 2025 – Present*

- Built a React and TailwindCSS dashboard with Chart.js charts visualizing 5+ event metrics including RSVPs, attendance, and engagement.
- Implemented a Node.js & MongoDB backend managing event/RSVP data for 50+ student participants**.**

Children's RGB Color Match Game **Hamilton, Ontario**
Solo-Contributor *Jan. 2026 – Feb. 2026*

- Developed a mobile-responsive RGB color recognition game using HTML, CSS, and JavaScript featuring 10 timed rounds and dynamic score tracking.
- DOM-driven UI with event listeners supporting real-time scoring and replay functionality across 10 game rounds.

ACTIVITIES & LEADERSHIP

McMaster Computer Science Society **Hamilton, Ontario**
Social Media Executive *Sept. 2025 – Present*

- Managed announcements across Instagram/Discord to promote events to 200+ CS students.

SKILLS

- **Languages:** Python, C, HTML/CSS, JavaScript, Haskell, React, Java
- **Tools:** MacOS, Git, Linux, Windows
